### Parent Support

Please see below information from Public Health Agency/ Department of Health regarding PPI Expression of Interest:

We are seeking advocates (parents, carers or family members) to become involved in a short project to help us improve a new, standardised referral form that supports children and young people in Northern Ireland. The form will be used by professionals to refer children and young people for services and support for emotional health and wellbeing. This will include identifying support for children and young people with neurodiverse needs (including autism (ASD) and ADHD), and mental health support (CAMHS).

We're inviting you to join an online information session to learn more about this project, after which you can decide whether you wish to join a small number of focus group sessions.

The online sessions will be on the following dates –

- Monday 3rd February
- Wednesday 5th February
- Thursday 6th February
- Friday 7th February

If you would be interested in joining one of these online sessions, please complete your information at the link below:

## Parent Support

Dear Parent/Carer,

RE: Education Authority (EA) Communications and Engagement Survey

Please see below a short survey the EA has shared for the attention of parents/carers which I would encourage you to consider providing feedback on.

The EA are developing a new Communications and Engagement Strategy and are very keen to get your valuable insights, experiences and views in relation to how they can improve communications with you.

This is really important for supporting children and young people and their families throughout their educational journey.

You can access the survey at:

<https://forms.office.com/e/BQ6XnbrwXt>

This will take approximately 15 minutes for parents/carers to complete and will close at 16:00 on Friday 31st January 2025.

Thank you for taking the time to consider this request and for helping to help support this important work.
